BY YOUTH

BHARTYA YUVAK KHEALKUD AVAM VIKAS SANSTHAN is a registered charitable Society under Madhya Pradesh Society Registration Act, 1860 having commenced its work 10 years back in the city of Bhopal in Madhya Pradesh State. **BHARTYA YUVAK KHEALKUD AVAM VIKAS SANSTHAN** is focused in its work in the area of improving healthcare, education, Environment outcomes in the underprivileged sections of the society.

To address the above we have three key programmes :

(A) First Aid Programme which provides affordable, immediate relief and medical intervention to critical health issues, and

(B) Public Health and Educational Programme which addresses long term healthcare outcomes through health & hygiene awareness programmes in rural villages. Under the Sustainable Development Goals (SDGs) chartered by the United Nations, Good Health and Wellbeing come in the top three in the 2015 Resolution. Under this goal, universal health coverage proposes to end preventable deaths of rural person. Further, goals like Clean & Safe Drinking Water and Sanitation are stated as the precursor to achieving many other SDG targets as they protect people from diseases and enable them to be productive economically. Under goal Zero Hunger thrust is on improved nutrition, stressing how under-nutrition causes wasting of 52 million children worldwide. Chronic malnutrition stunts children's brain and physical development. The SDGs, also known as the Global Goals, are a universal call to action to health and well-being of people in general, and children in particular.

(C) **BHARTYA YUVAK KHEALKUD AVAM VIKAS SANSTHAN** believes that through its holistic approach encompassing both long term preventive healthcare, and, immediate tertiary health benefits, it can address issues of quality health, quality education, nutrition and wellbeing of every rural villager irrespective of their economic status, race and religious background

VISION : BHARTIYA YUVAK KHEALKUD AVAM VIKAS SANSTHAN vision is '**Aarogya-Swaraj**' or

putting the 'People's health and educational in the people's hands.' By empowering individuals and communities to take charge of their own health and educational BHARTIYA YUVAK KHEALKUD AVAM VIKAS SANSTHAN aims to help people achieve freedom from disease as well as dependence. Empowerment for BHARTIYA YUVAK KHEALKUD AVAM VIKAS SANSTHAN is more than the mere involvement, participation or engagement of individual or communities. It implies community ownership and action that explicitly aims at social and political change. This, BHARTIYA YUVAK KHEALKUD AVAM VIKAS SANSTHAN tries to achieve by means of its four pillars of action

1. **SERVICE** to prevent and treat the existing health problems
2. **EDUCATION** to impart knowledge on health promotion and disease prevention
3. **RESEARCH** for the pursuit of knowledge and its application in problem solving
4. Shaping **POLICY** to disseminate our successful methods/strategies/
interventions BHARTIYA YUVAK KHEALKUD AVAM VIKAS SANSTHAN, today, is recognized as a global leader amongst public health institutions and educational

Reaching to maximum number of deprived rural area through BHARTIYA YUVAK KHEALKUD AVAM VIKAS SANSTHAN support centers and interventions for bringing about sustainable changes in their lives through education

VALUES

NON-DISCRIMINATORY: - BHARTIYA YUVAK KHEALKUD AVAM VIKAS SANSTHAN does not discriminate in its selection of philanthropic project activity, on the basis of gender, race, color, religion, age, disability, gender orientation, lifestyle etc. **SECULAR, NON-**

POLITICAL AND NON-RELIGIOUS: - We support only secular community initiatives, projects or people. This means that we will not support initiatives or projects that are solely for the benefit of one religious community barring others. We support only non-political community initiatives, projects or people. This means that we will not support a particular political party or ideology. **NO PERSONAL BENEFIT**: -We keep an ethical firewall in our operations. Every project which supports is not and should not be dependent on any personal benefit for that or any our volunteer.

What? we  do

- We have 10 support centers in different village of Madhya Pradesh (prime objective-quality health checkup ,educational camp, placement drive aligned objectives-minimizing the risk of discontinuity of education, mental and emotional well being, foundational learning, and parental care) in rural areas for underprivileged people We
- run e-Merge programme in 25 vilages (full time trained staffs supplementing the health checkup camps system rural villages with an optimal blend of activity based learning, Follow the right balance of healthy work environment and team collaboration
- for running By addressing issues of quality health, nutrition and wellbeing of every child irrespective of his/her economic status, race, and religious background, we stand
- out in our holistic approach to healthcare, encompassing both immediate tertiary health benefits, and, long term preventive health needs In our flagship programme, the Surgery Support Program (SSP), there is high awareness among the medical fraternity, paramedics and social workers in the region about Ekam Mumbai and its
- helpline. Ekam Foundation Mumbai ensures that support reaches to the neediest and work flow has been developed to expedite the entire process so that appropriate help can be provided to children in need of life saving interventions. Since last three years, our volunteers have executed our e-learning programmes in 120 villages regarding first aid and health tips During last 05years,we have developed an effective group of
- volunteers in rural areas who contribute at our centers on honorarium basis. All such voluners undergo our capacity building health program training programme. Usually,
- each of our support centers run for 3 to 4 hours a day. Our entire health camp in rural villages are free of cost. We do not charge even a singly rupee from any person. We provide first aid kits to rural area free of cost based upon receipt of such kits from donors. We have ensured average 30 days training to our resources/ volunteers
- enabling them serving the health camp in batter form.

Dear Supporters,

As I look back at the year gone by, I am filled with the sense of satisfaction and pride for my team which has built a platform that has reached more rural area person than any year gone by. We are now with a presence outside Madhya Pradesh and continue to grow where health and educational sectors . need us more!

In the year 2000-2024, BHARTIYA YUVAK KHEALKUD AVAM VIKAS SANSTHAN supported over 311 rural village in medical treatment under our Surgery Support Programme, and, under our School Health Programme, an awareness programme on health ,educational and hygiene focused on safe drinking water, reached to over 175000 children in over 1327 schools. During the last financial year, with the support of our donors ,we have been able to reach out to rural area in need of medical aid. As we build our programme, our partnership with doctors, hospitals, schools and medical community has been strengthened and deepened to allow us to build more interventions with greater impact.

We believe that the NGO community is an important and powerful platform to reach out to RURAL AREA in where health need. During the year, in addition to 1099 villages, we also reached out to 228 low income rural area in the district. As we build our presence, we would like to harness this platform for reaching out to more person in need keeping their wellbeing and health as a priority. Not only are we increasing the number of rural area in our reach, but also our collaborations with other NGOs in the space of mental health, leadership programmes and sanitation, will allow us to bring more impact to our society in the coming year. Our success stories that you will find in the report, speak for themselves and would like to add that each and every member of the team has worked selflessly during the last year and remain committed to the cause and my special thanks to them for being with us.

I also extend my gratitude to our esteemed donors, our hospital partners, untiring doctor community, and our fellow NGO partners without whom we would not be in a position to reach to the neediest of the needy rural area. We look forward to your continued support.

With warm regards and renewed sense of enthusiasm,

Our Programmes

BHARTYA YUVAK KHELKUD AVAM VIKAS SANSTHAN was started with the idea of providing access to safe, affordable and timely surgical and educational support to less privileged poor person. Under First Aid Support/Medical Intervention programme, BHARTYA YUVAK KHELKUD AVAM VIKAS SANSTHAN provides medical aid to less privileged person in need of life saving medical interventions.

The thrust of the programme is to arrange subsidized elective surgeries for a variety of medical conditions to ensure positive health outcomes, such as congenital heart diseases, orthopaedic problems, eye and ear ailments and heart and liver transplants through a network of both public and private hospitals. Most person from economically weaker sections find themselves at crossroads when their limited financial resources need to be spared for their children's and others healthcare. This is true for both acute conditions that need immediate attention and chronic diseases where expensive prolonged treatment and care are needed. Most often parents come to the end of their resources in the process of treating the ailing child. It is here that BHARTYA YUVAK KHELKUD AVAM VIKAS SANSTHAN steps in to provide necessary medical aid so as to save a precious life.

Need of the Programme

The National Health Profile (2017) published by the Central Bureau of Health Intelligence states that about a quarter of all rural households, and one in five urban families in India, are forced into debt or sale of assets to meet hospitalization costs. There is a wide gap between the demand and supply of secondary and tertiary Public Healthcare.

For example, in the city of Mumbai Public Healthcare infrastructure was planned in the 1950s and 70s when the city population was about half of the present one. At the same time suburb and satellite cities like Thane and Navi-Mumbai have grown faster than the island city of Mumbai. However public healthcare infrastructure has failed to keep the same pace and the inability to improve human capital places a constraint on economic growth. And other wise expensive, treatment that can restore the quality of their child's life. Each year India loses more than 1 million babies under the age of 1 year. Greater than 95% of these deaths can be prevented with access to good healthcare. It is therefore imperative to provide the poor with access to quality healthcare.

Brief Details of the Programme

Project Details

BHARTYA YUVAK KHELKUD AVAM VIKAS SANSTHAN has propagated its helpline number to the key stakeholders like Community Development Officers, Doctors, Health workers, Medical Officers, Anganwadi-Sevika and School Teachers. On identifying poor person needing hospitalization and education support from under-privileged background, they get referred to the BHARTYA YUVAK KHELKUD AVAM VIKAS SANSTHAN helpline.

BHARTYA YUVAK KHELKUD AVAM VIKAS SANSTHAN also gets referrals from its partnership with other NGOs, who identify cases at grass root level and refer it to BHARTYA YUVAK KHELKUD AVAM VIKAS SANSTHAN for financial assistance from rural areas. Helpline acts as a guidance and counselling center. BHARTYA YUVAK KHELKUD AVAM VIKAS SANSTHAN runs due diligence to verify economic back ground of the family and medical history of the child and prescribed line of treatment and cost

Supporting Schools as a Social Responsibility Initiative

Project Details

Our company is committed to contributing to the betterment of society as part of our corporate social responsibility (CSR). Recognizing the importance of education and the environment in fostering holistic development, we have launched an initiative to support schools in Bengaluru by improving their infrastructure and amenities. This report outlines our objectives, areas of focus, and the implementation plan for this initiative.

Objectives

- To provide a conducive learning environment for students.
- To promote hygiene and cleanliness in schools.
- To enhance the overall infrastructure to support both academic and extracurricular activities.
- To encourage community participation and awareness.

Key Areas of Support

Infrastructure Development -

- Construction and Renovation: Repair and renovation of existing classrooms, ensuring proper ventilation, lighting, and structural safety.
- Toilet Facilities: Building new toilets and refurbishing existing ones with a focus on hygiene, accessibility, and privacy for students, especially girls.

Secretary@bysadi.com

+91 9111111538

Key Areas of Support

Amenities -

- Grass Patches and Playgrounds: Development of green spaces and grassy areas for recreational activities.
- Installation of Dustbins: Placement of waste disposal bins across the school premises to maintain cleanliness and encourage waste segregation.
- Play Equipment: Installation of swings (jhule), slides, and other play structures to support physical activities for children.
- Sitting Arrangements: Providing benches and seating areas in classrooms, playgrounds, and shaded outdoor zones.

Implementation Plan-

1. Needs Assessment

- Conduct surveys and site visits to identify schools requiring support in Bengaluru.
- Prioritize schools based on factors such as student population, location, and current infrastructure conditions.

2. Resource Allocation

- Allocate budget and resources for construction, materials, and labor.
- Collaborate with local contractors, vendors, and community members for efficient implementation.

3. Execution

- Phase 1: Basic infrastructure repairs and toilet construction.
- Phase 2: Installation of grass patches, play equipment, and dustbins.
- Phase 3: Setting up seating arrangements and additional amenities.

4. Monitoring and Evaluation

- Regularly monitor project progress through field visits and feedback from school authorities.
- Evaluate the impact of the initiative on student attendance, hygiene practices, and overall satisfaction.

**BHARTIYA
YUVAK KHEALKUD**
AVAM VIKASH SANSTHAN
BY YOUTH

Social Impact

- Improved student health and hygiene.
- Enhanced learning and recreational environment.
- Increased community engagement in school development.
- Contribution to the United Nations Sustainable Development Goals (SDGs), particularly Goal 4 (Quality Education) and Goal 6 (Clean Water and Sanitation).

Conclusion

Through this initiative, our company aims to make a meaningful contribution to society by supporting schools in Bengaluru and enhancing their infrastructure. We are confident that this project will create a positive impact on students, teachers, and the broader community, ensuring a better and brighter future for the next generation.

Evaluation research on Children health

Most of the parents of children supported in a year are called by BHARTIYA YUVAK KHELKUD AVAM VIKASH SANSTHAN staff to enquire about their health and progress. BHARTIYA YUVAK KHELKUD AVAM VIKASH SANSTHAN also appoints independent agency to assess programme outcome and evaluate programme processes. Below are the important findings from the evaluation research conducted last year.

Out of 100 children, 89 were healthy, 5 parents were recovering while 6 children did not survive. A considerable reduction in financial spend on medical bills.

45% patients believed that better financial health of the family was the biggest benefit of the program, 95% parents gave 4 and above rating for programme satisfaction on 0-5 scale.

Impact was also recorded on improved physical health, attendance and academic performance of school going children and positive family social relationships.

School Health Programme

BHARTYA YUVAK KHELKUD AVAM VIKAS SANSTHAN initiated its School Health Programme, an awareness program focusing on Health and Hygiene among the primary schools and the Govt school of Madhya Pradesh state, with the sole intention to bring about a behavioural change among the children and thereby bringing down morbidity and mortality on account of common communicable diseases and to promote overall health. In the past, team BHARTYA YUVAK KHELKUD AVAM VIKAS SANSTHAN has covered the following topics through this programme

- (a) Hand washing and personal hygiene,
- (b) Toilet etiquette and sanitation,
- (c) Oral health and
- (d) Safe drinking water.
- (e) Placement drive

In the academic year 2021-22 safe drinking water was selected as the topic of awareness. According

to the World Health Organization, waterborne diseases are linked to significant disease burden worldwide. Diarrhea causes 4% of all deaths and 5% of health loss to disability world-wide. Repeated

episodes of diarrheal disease make children more vulnerable to other diseases and malnutrition. In the academic year 2021-22,

Secretary@bysadi.com

**BHARTIYA
YUVAK KHEALKUD**
AVAM VIKASH SANSTHAN
BY YOUTH

we are focusing on nutrition and dietary practices. Under nutrition undermines the survival, growth and development of children, and diminishes the strength and capacity of the nation. Therefore, it deemed appropriate to spread unawareness on nutrition and diet following our earlier programmes on drinking water, hand hygiene and sanitation. School is an important platform, offering an efficient and effective way to reach many children, and through them, their families and community members

About the Programme

BHARTIYA YUVAK KHEALKUD AVAM VIKASH SANSTHAN creates its own marketing collateral which includes 35-40 minutes digital presentation and other collaterals like posters, standees, book labels, badges etc. The presentation comprises of an interesting story which revolves around central characters which children can relate to. BHARTIYA YUVAK KHEALKUD AVAM VIKASH SANSTHAN trained staff conducts these sessions in school by prior appointment.

Each session has on average 50 students in it, which is an optimum class size. Interactive sessions and animated delivery of the story help in demonstrating messages well. A set of 5- 6 book labels printed with the message and facts, and motivational slogans on it, are handed over to each student. A couple of badges with similar message are also handed over to the most active and smart students to encourage participation and create interest among participants. Posters are put up on the school walls for easy recall of the same messages for the children. BHARTIYA YUVAK KHEALKUD AVAM VIKASH SANSTHAN also creates a short animation video of 7 to 10 minutes on previous year's message and runs it at the end of the session to repeat and reinforce previous year's message.

Survey Responses

- Why we (body) need water- Four or more correct answers came from 7.5% in baseline to 47.6% in end line. While for comparison group it was 6.1% in baseline and 4.7% in end line. What are signs and symptoms of dehydration-Two or more correct answers came from 0.6% in baseline to 39.4% in the end line for interventional group, while it was only 1.3% in baseline and 0.4% in the end line for comparison group. Common diseases due to unsafe drinking water- About 8.8% students answered 4 or more correct answers in baseline which jumped to 39.3% in the end line for interventional group. While in comparison approx. 10.6% in baseline and 6% in end line answered group 4 or more correct answers. Methods of making drinking water safe- At least one correct answer went up from 22.4% in the baseline to 33.3% in the end line for interventional group. While it was more or less same for the comparison group. Type of water pollution- In baseline only 0.1% answered one correct answer and 0% answered two or more correct answers which increased to 20.8% and 13.7%, respectively in end line. There was no correct answer either in baseline or end line in comparison group. Effects of water pollution- In baseline no one answered correctly while in end line 6.3% students answered one correct answer and 5.7% could answer two or correct answer for interventional group. While no one could answer correctly in both baseline and end line from comparison group. Approximately 80% of the respondents said they received health and hygiene related information by our Trust in the last year.
-
- Most of the findings above were highly statistically significant which underlines the effectiveness of programme delivery.
- Where water pollution happens-From 0.1% in baseline at least one correct answer and two correct answers jumped to 21.3% and 23%, respectively in end line for intervention group. While there were hardly any correct answers in baseline and end line for comparison group.
- Type of water pollution- In baseline only 0.1% answered one correct answer and 0% answered two or more correct answers which increased to 20.8% and 13.7%, respectively in end line. There was no correct answer either in baseline or end line in comparison group.
- Effects of water pollution-In baseline no one answered correctly while in end line 6.3% students answered one correct answer and 5.7% could answer two or correct answer for interventional group. While no one could answer correctly in both baseline and end line from comparison group.
- Approximately 80% of the respondents said they received health and hygiene related information by our Trust in the last year.
- Most of the findings above were highly statistically significant which underlines the effectiveness of programme delivery.
